

COMPACT TRACTORS 22-60HP

A history of innovation

More than 100 years of Japanese innovation and excellence and some 50 years of European experience combines to provide a tractor range that is purpose-built for European customers.

The quality built into every Yanmar compact utility tractor is a reflection of the company's heritage.

Built in Japan to meet the specific needs and demands of European customers, these tractors are the culmination of a continuous design and development process that is never satisfied and that is constantly evolving and improving.

These machines feature advanced systems and yet are easy to operate. They are quiet and clean-running, yet powerful and productive. And they set new standards whilst drawing inspiration from the company's

"When only the best will do."

"It's all about trust. The landscapers and municipalities who are my professional customers want their tractors to complete the job. Always and under all circumstances. That is what YANMAR tractors do. They keep the promise."

Mr. Karsten Kreibohm, owner of Kreibohm Kommunaltechnik, Alferde, Lower Saxony, Germany

YANMAR Tractor power range

22_{HP}

26_{HP}

35_{HP}

47_{HP}

60_{HP}

Exceptional ground clearance provides a smooth ride in all terrains.

SA Series

SA221-R/SA221-Q SA424-R/SA424-Q

Provides excellent protection together with a low-profile for transportation.

Compact body

Designed to go anywhere and to operate where space is at a premium.

Spacious cab

Providing the ideal combination of operator comfort and operator protection.

The machine is equipped with a Category I 3-point hitch as standard, and is offered with a wide array of attachments for maximum operating versatility and optimum utilisation levels.

Class leading fuel economy

Advanced engine and transmission technology combines to reduce fuel consumption and lower operating costs.

Model	SA221 (Cabin & ROPS)	SA424 (Cabin & ROPS)
Output	22 HP	26 HP
Transmission	Т	wo Pedal Hydrostatic Transmission
Travelling speed	13 km/h	23 km/h
Lifting Capacity	520 kg	713 kg
Short turning radius	2,4 m	2,6 m

Expect more. Get More. YT2 tractor delivers.

designed and developed to be a "pleasure to own". And that is precisely what Yanmar has achieved.

YT2 tractors were

Width and height may vary, based on tire type

3063 mm

Common rail STAGE V engine Satisfies all current emissions regulations and is ready for EU Stage V standards.

HTS operation variable to max. speed of 31 km/h

Smooth speed and directional changes, easy switching between 2WD and 4WD, and an impressive top speed of 31 km/h.

Intuitive operation

Ergonomic controls are within easy reach and are intuitive to operate, allowing the driver to remain relaxed while working.

6000h DPF maintenance interval the entire lifetime of the tractor Automatically-regenerating diesel

particulate filter reduces exhaust emissions for clean running and

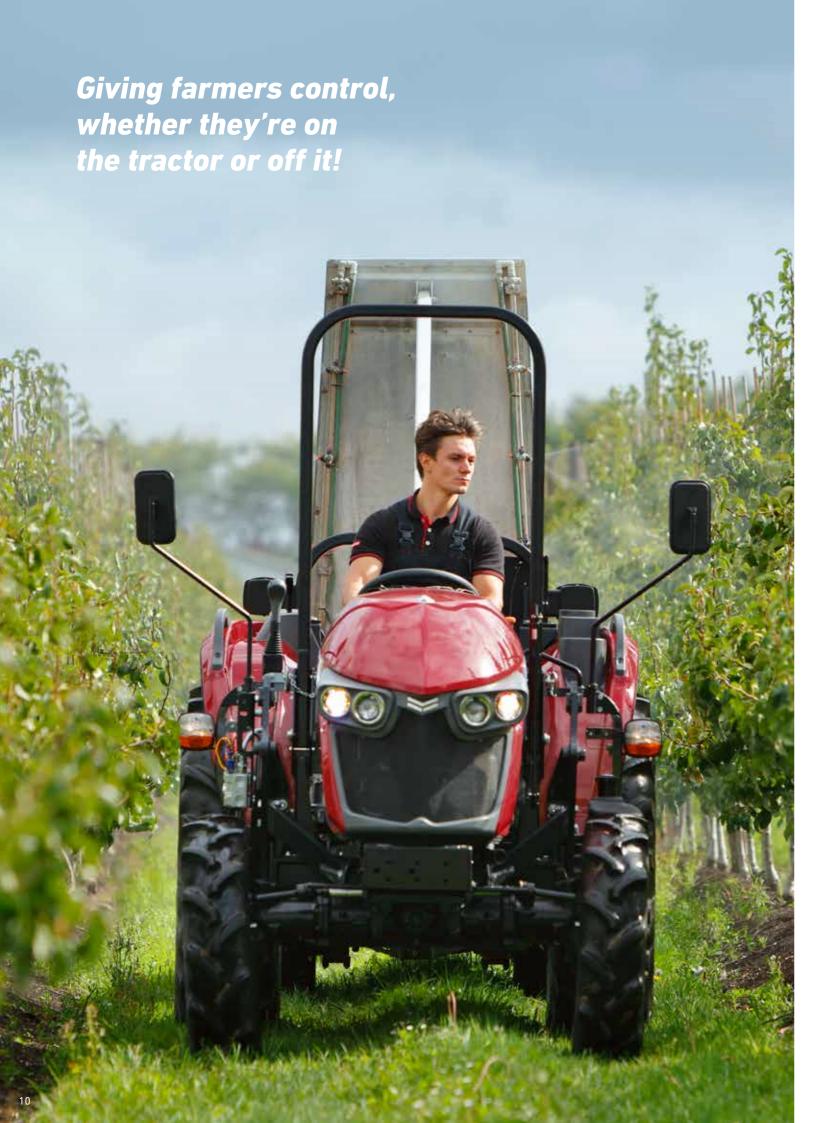

Drive over the mid-mower

Mid-mounted mower provides optimum combination of power, performance and operator visibility for increased production and safety.

Model	YT235 (Cabin & ROPS)
Dutput	35 HP
ransmission	Two Pedal Hydrostatic
ravelling speed	31 km/h
Lifting capacity	1300 kg
Cabin height	2060 mm

YM3 Series YM347-R YM359-R

Built today for the challenges of the future

Powerful and field proven Yanmar direct-injection TNV common rail engine utilises electronics to optimise combustion by electronically controlling fuel injection for reduced fuel consumption and lower running costs.

Fully-synchronised 12 x 12 transmission provides smooth speed shifting throughout the range. Two or four-wheel drive is selected using a simple lever.

Simple to operate yet covered by state-of-the-art telematics, YM3 tractors combine tradition with technology to satisfy customer needs.

Compact Dimensions

Width of just 1,42 m with narrow tyre option and foldable ROPS protection provides go-anywhere, operateanywhere flexibility.

Model	YM347 (ROPS)	YM359 (ROPS)						
Output	47 HP	60 HP						
Transmission		Full synchronized gear						
Engine		STAGE V Common Rail, 4 cylinder						
ROPS		Foldable						
Minimum width	1420 mm 1420 mm							

YT3 Serie

YT3 Series

YT347-R/YT347-Q YT359-R/YT359-Q

Highly efficient variable transmission i-HMT (integrated Hydro-Mechanical Transmission)

I-HMT achieves smooth and step-less gear shifting from zero to maximum speed. Optimum speeds that were not previously available with existing equipment are now selectable at will to match specific duties and applications.

Fully flat deck

Unevenness is eradicated from the floor to create a level surface free from trip hazards for enhanced safety and comfort.

High power common rail engine

Class-leading levels of power and productivity balanced by environmental credentials that are unmatched in this tractor weight class.

Full LCD display with Electronic

Instrumentation panel displays a reminder for key operations and maintenance intervals.

Vibration absorbing frame structure

Frame structure suppresses both noise and vibration to provide operator with ideal working environment and noise levels of just 77 dB(A).

Model	YT347 (Cabin & ROPS)	YT359 (Cabin & ROPS)					
Output	47 HP	60 HP					
Transmission	i-HMT (Vario) Hydro Mechanical Transmission						
Engine	STAGE V Common Rail, 4 cylinder						
Sound	77dB						
Short turning radius	2,8 m 2,9 m						

Yanmar Genuine Parts

Yanmar's genuine parts are built, tested and produced to provide optimum safety and quality. By using genuine Yanmar spare parts, the performance, durability and resale value of your machine is assured.

Fast delivery of European parts distribution

The purpose-built Yanmar European bonded-goods central warehouse in The Netherlands dispatches stock items across Europe. The warehouse operates with a highly efficient, computer-controlled system that is fully integrated with Yanmar's (in-house designed) Parts Management System.

Yanmar 5 Year Warranty

Don't settle for standard. Yanmar tractors are designed from the ground up and backed by 110+ years of experience. This exceptional quality gives Yanmar the confidence to offer not 2, 3 or 4 but a 5-year or 5,000-hour warranty.

Yanmar Europe's unique in-house designed warranty ensures that any issue, normally covered by Yanmar's standard 2-year warranty, is covered by 5 years or 5,000 hours, whichever comes first.

What's included?

- Exterior, Cabin and ROPS
- Common rail diesel engine aftertreatment system
- W Hydraulics system
- Engine parts with a 2-year warranty are extended to 5
- Transmissions parts such as: front axle, main transmission and driveline

Genuine Yanmar lubricants

The finest tractors deserve the finest lubricants.

Because Genuine lubricants and coolant are so important for engine performance, proper maintenance and valid warranty, Yanmar recommends SAE10W30 premium diesel oil for its tractors, equipped with Stage V engines.

Our Genuine lubricants offer low temperature protection against wear and are formulated for optimum DPF life.

Available in bottles of 5L, 20L and 208L drum, the volumes suit the farmers and are loved by service shops.

Yanmar Service Kits

All-inclusive peace of mind.

Quick and hassle-free maintenance with a full range of all-inclusive service kits for each tractor model. Service kits save time and money when servicing Yanmar tractors while offering an attractive price advantage. The maintenance kits contain all necessary Genuine Yanmar parts and components, manufactured according to the highest Yanmar standards. For optimal performance, service intervals have been further optimized to 50, 250, 500 hours or after 1 or 2 years.
