ABOUT THE EVENT
Malaysia International Marine Expo 2016 (MIMEX) is an international maritime and offshore industrial event that brings an international congregation of companies together in Sibu, Sarawak, Malaysia.

It is slated to be Malaysia’s most comprehensive international business platform encompassing all aspects of ship building, ship repairs, shipping, maritime engineering, offshore engineering & technology, dredging equipment and ports & logistics.

The event is an exceptional meeting point for the global maritime community in Malaysia, a region where the industry remains buoyant and strong growth is set to occur. Malaysia International Marine Expo 2016 (MIMEX) will bring together leading industry players.

Facts Of The Maritime & Offshore Industry In Malaysia

Malaysia aims to capture two per cent of the global shipbuilding industry by 2020
Malaysia aims to capture two per cent of the global shipbuilding industry by 2020 from one per cent in 2010, President and Chairman of the Association of Marine Industries of Malaysia (AMIM) Tan Sri Ahmad Ramli Mohd Nor said. Global demand for new vessels is expected to grow 26 per cent in the next few years in tandem with global economic recovery. In Malaysia, oil and gas explorations in marginal oilfields will drive demand for vessels in the booming oil and gas sector.

Currently, there are over 80 active shipyards in Malaysia. Boustead Heavy Industries Corporation Bhd is a leading shipbuilding, ship repair, maritime, engineering and defence-related services provider, with three shipyards in Lumut, Pulau Jerejak and Langkawi. It has strong capabilities in the construction and repair of both naval and commercial ships.

The Shipbuilding Industry In Sibu, Sarawak
The Malaysian government wants the shipbuilding and ship repair (SBSR) industry in Sarawak to be developed in order to create a name for the state. For Sarawak alone, the SBSR industry generated revenue of RM2.83 billion in 2013 and succeeded in creating more business and employment opportunities for the local people. Sarawak exported 70 per cent of the ships manufactured, with the remaining for the local market. Ships manufactured in Malaysia are exported to neighbouring countries such as Singapore, Indonesia, Myanmar, Thailand, the Philippines and Brunei.

Boustead Heavy Industries Corp Bhd (BHIC) sealed deal to position Malaysia as a regional shipyard centre
Boustead Heavy Industries Corp Bhd (BHIC)’s associate Boustead Naval Shipyard Sdn Bhd has sealed a deal to position Malaysia as a regional shipyard centre for ship repair and ship maintenance. The pact will see BN Shipyard acquiring specialist South Korean consulting and advisory services in ship maintenance, repair and overhaul (MRO). BHIC managing director Tan Sri Ahmad Ramli Mohd Nor said by collaborating with MMAM, it is able to acquire South Korea’s best shipyard practices, which in turn will allow BN Shipyard to increase its productivity and meet delivery goals.
