SMARTASSIST

Better Work Performance in paddy and dry field farming

Fully Synchronized Transmission

The YM3 tractor uses a fully synchronized transmission for smooth gear shifting and forward and backward switching as well as excellent durability.

This transmission allows you to drive on the street more comfortably since you do not have to stop the tractor completely to change gears.

Independent PTO

Stop the PTO at the touch of a button to prevent damage to the PTO drive shaft when raising implements. There is no need to stop the tractor even while driving.

SMARTASSIST Remote

GPS and other sensors let you know exact location and operation of the tractor on your smartphone and PC. This feature can help you reduce machine downtime and costs.

SMARTASSIST

Direct Injection Engine

Developer of the world's first small diesel engine, YANMAR's extensive fuel injection and combustion technology comes together in this powerful and reliable package.

Features

Ground clearance 425mm

Great clearance is the key to powering on in muddy conditions or passing over crops without damaging them.

Tight turns

Turn the wheels all the way over to their maximum 55 degrees for tight turns at the end of the row and those tough corners.

Deluxe seat

Shift forwards or back with a convenient lever and enjoy stepless adjustment of seating suspension for comfort that lets you work all day.

Flat deck

A flat deck lets you slide smoothly into the seat while offering the operator the comfort of a broad and stable work platform.

Lever layout

Easy to operate with comfort that lets you spend long hours working.

12 V accessory socket

Charge smartphones and other devices while on the go.

(Cigar USB Socket not included)

ROPS

The Foldable ROPS make it easier to work and store in places where height is restricted.

Canopy

The mounting angles of the ROPS and canopy have been revised to improve the light-shielding range.
