

# Digging Buckets

## DESCRIPTION

A wide range of digging buckets are available. They come in different sizes and are available for all quick coupling systems we offer. The high strength steel and the reinforced structure make our digging bucket robust and wear resistant during the operating time. The angled profile gives less resistance to the ground and fast penetration.

## MACHINE COMPATIBILITY

### CRAWLER EXCAVATOR > 0-12 T

#### DIGGING BUCKETS

DIRECT FIT DIGGING BUCKETS  
L-SYSTEM DIGGING BUCKETS  
R-SYSTEM DIGGING BUCKETS
