## **Yanmar Concludes Sales Agreement with 2G to Promote Decarbonization**

Online signing ceremony with 2G

March 30, 2021, Osaka, Japan - Yanmar Energy System Co., Ltd., (YES) a subsidiary of Yanmar Holdings has signed an agreement with 2G Energietechnik GmbH (2G) a subsidiary of 2G Energy AG for the sale of 2G's gas cogeneration systems towards decarbonization efforts of Yanmar.

Recent years have seen the growing importance of establishing a diverse power supply structure incorporating the use of distributed energy and renewable energy. Yanmar has been a leading proponent of the use of biogas power generation in Japan with a focus on local production and local consumption of energy. In March 2021, Yanmar established the Carbon Neutral Business Promotion Office in Japan and Germany, focusing on the early commercialization of new fuels such as hydrogen with the aim of achieving decarbonization in Japan and abroad.

Yanmar has recently signed a contract with 2G, a German company that is a pioneer in natural gas and biogas cogeneration systems and has commercialized a 100% hydrogen engine, in order to distribute its products in Japan, Asia, the Middle East, and Africa. This agreement will enable the company to sell 2G's cogeneration systems in the 20-2500kW output range within Japan and overseas.

Yanmar will continue to propose a wide range of comprehensive solutions to customers, expand our global partnership with 2G, and contribute to the advancement of environmentally friendly systems.

### ■ Outline of the Agreement

Date of conclusion: March 29, 2021

Target region: Asia (including Japan), Middle East, Africa

Products covered: 2G's natural gas and bio-cogeneration systems (20-2500kW)

100% hydrogen fuel cogeneration system (115-360kW)

2G Hydrogen cogeneration system

### About Yanmar

With beginnings in Osaka, Japan in 1912, Yanmar was the first ever to succeed in making a compact diesel engine of a practical size in 1933. Moving on, with industrial diesel engines as the cornerstone of the enterprise, Yanmar has continued to expand its product range, services, and expertise to deliver total solutions as an industrial equipment manufacturer. As a provider of small and large engines, agricultural machinery and facilities, construction equipment, energy systems, marine, machine tools, and components — Yanmar's global business operations span seven domains.

On land, at sea, and in the city, Yanmar's Mission of "providing sustainable solutions focused on the challenges customers face, in food production and harnessing power, thereby enriching people's lives for all our tomorrows," stands testament to Yanmar's determination to providing us with "A Sustainable Future." ## **About 2G Energy AG**

Founded in 1995, 2G Energy AG is listed as a publicly traded company on the Scale Segment of the German Stock Exchange. The stock was originally launched with the name “2G Bio-Energetechnik AG” and a focus in the manufacturing of biogas cogeneration plants. The strategic position has changed since then to now include a focus on the growing natural gas sector. To reflect this, the company changed its name to 2G Energy AG in 2011.

With 10 subsidiaries represented in 6 countries and over 580 employees worldwide, 2G Energy AG is a financially strong corporation with focus on future growth.
