Subject: Information required by the REACH regulation (art.33)

Dear clients,

The safety of our products and the protection of the environment are major concerns for YANMAR COMPACT EQUIPEMENT EMEA.

We are a manufacturer of excavators, loaders and dumpers, considered as items within the REACH regulation CE/1907/2006.

Together with our suppliers, we ensure that all mixtures and substances present in our items meet the requirements of registration, authorization and restrictions.

The identification of an SVHC substance and its inclusion to the candidate list creates the obligation to transmit the information about this substance in the items to the clients. There is no restriction or ban on using these substances.

In compliance with article 33 of the REACH CE/1907/2006 regulation, we inform you that, based on the data collected from our suppliers, our machines may contain SVHC substances, in a percentage above 0.1% in weight, identified in the following table.

Please call YANMAR COMPACT EQUIPEMENT EMEA for any additional information you may require.
