Yanmar Celebrates National Intern Day 2022

Yanmar's interns at the EVO//CENTER facility in Acworth, Georgia.

Adairsville, Georgia (July 28, 2022) - Yanmar America will recognize the hard work and dedication of its interns this National Intern Day. Yanmar launched its inaugural Internship Program in May 2022 and concludes the internship period with capstone presentations this week.

The Yanmar America Internship Program is designed for students to gain work experience in a professional setting with the goal of inspiring and educating future leaders while paving the way for potential new talent.

"Yanmar's Internship Programs allows these students to gain hands-on experience in a real work environment where they confront genuine business challenges," said Selena Galmon, Yanmar America's Director of Human Resources. "At the same time, Yanmar benefits from the fresh ideas and perspectives that our interns bring to their roles."

The Internship Program provides smart and enthusiastic employees to help accomplish

company goals while providing the interns with the opportunity to learn new skills and develop workplace relationships that will stand them in good stead in their working life. Having gained some insight into the business and culture of the company, some interns may also have the opportunity to work for Yanmar in the future.

Yanmar's own workforce also benefits from the opportunity to develop leadership abilities as they guide and mentor the interns on their teams.

"My time as an intern at Yanmar has allowed me to see what kind of opportunities are available in the real world," said Alex Eagens, a mechanical engineering student at Kennesaw State University. "It has been an unforgettable experience."

Meet Yanmar's Interns

Alex Eagens

Alex is studying Mechanical Engineering at Kennesaw State University and is looking towards a career in Engineering Management with a view to one day managing his own business. Alex is interested in personal fitness and works out every single day of the week except Saturdays.

Tanner Highfield

Tanner studies Mechatronics Engineering at Kennesaw State University. Tanner is interested in the way that automation is changing every aspect of our world and is excited at the prospect of working in this transformative area. Tanner shares his time with Thor, his pet lizard.

Lauden Dome

A marketing major at the University of Iowa, whose dream is to one day run their own company. Lauden loves working with digital and social media marketing and enjoys working out, taking pictures and videos, and singing in their free time.

Lucas Roberts

Lucas is a graduate of the University of Southern Mississippi with an M.S. in Logistics, Trade & Transportation and is interested in a career as a Senior Supply Chain Data Analyst. An avid gardener, Lucas is interested in the rural lifestyle industry and is in the market for his first block of land!

Zach Albright

Zach is a Finance major with a mandarin minor at the University of Iowa and dreams of one day running a private equity firm. He also enjoys video gaming and might just be the best Fifa player in Iowa!

Jonathan Harris

Jonathan is a Junior at the University of Alabama in Huntsville studying Film & Media. Jon has a passion for film and dreams of one day becoming a film director. Jonathan is interested in

photography and takes sports photos and videos, mainly basketball, in his free time.

This National Intern Day, Yanmar thanks its interns and looks forward to their success in the years ahead. After the achievements of this intake of six students in Yanmar's Internship Program 2022, the number is expected to rise as the program continues in the coming years.

About Yanmar America Corporation
