YANMAR

Fishing Cruiser

EX30B

Centerline length: 9.57m Width: 3.20m Depth: 1.82m

Hull dimensions

*The height from the draft to the surface of the water indicates the value when the boat is lightly loaded.

SPECIFICATIONS

Model	EX30B
Full Length	9.57m
Full Width	3.20m
Full Depth	1.82m
Maximum Number of People	10 People
Engine model	8LV350
Maximum output *FW output value	257kW / 3800min ⁻¹ (350ps/3800rpm)
Rated output	234kW / 3683min ⁻¹ (318ps/3683rpm)
Installation method	Anti-vibration
Fuel tank	500L

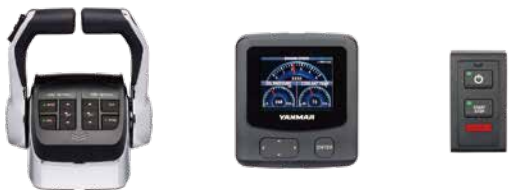

MARINE
COMMON-RAIL ENGINE

8LV350

Maximum output
257kW
3800min⁻¹ FW output

VC20 control system

Set mass	4140kg
Clutch (reduction ratio)	KMH61A -1S (2.04)
Steering machine	Static hydraulic
Remote controller	Electronic one-handle type
Battery	145G51×1 115F51×1 (sub-battery)
PTO	400mm
Propeller installation type	Bracket type
Propeller	3-blade integrated aluminum bronze

Fishing

STYLE

Purpose-Built for Serious Fishing

Aft deck

A spacious, flat aft deck—2,740 mm wide and 2,250 mm deep—is set close to the waterline and paired with 630 mm bulwarks for comfortable fishing. With a generous bow deck and an easy-to-rig layout, it's designed to support a wide range of fishing styles.

Large livewell

■ Radar arch

Navigation instruments such as radar and GPS antenna can be installed.

■ Aft deck steering station

As an option, steering can also be done from the aft deck.

■ Fin keel

Cuts sharply into waves and suppresses side currents and punching caused by wind.

A spacious cabin for looking out onto the horizon

CABIN

Large locker

Passenger seat

With a ceiling height of 1830 mm, the cabin is designed so that people sitting in the passenger seat have the same line-of-sight as the captain. The cabin offers plenty of storage space including large lockers, and the back area can be customized based on customer needs. For additional comfort, a factory option marine air conditioner can also be installed.

BERTH

The bow berth is wide enough for two adults to lie down comfortably, and there is storage space behind the backrest and under the cushions. There is also a bright and open rest room with a ceiling height of 1700mm, making long runs comfortable and reassuring.

HELM STATION

The counter space and the top of the large locker can accommodate up to three 10-inch-class displays, such as a GPS. The overhead console can also be fitted with equipment such as a VHF radio and audio system. An armrest-equipped driver's seat lets you fine-tune your helm position for optimal control and comfort.
