

Pursuing a refreshing and comfortable ride

Unique Boat Design

- 1 V type hull**
The large slope at the bottom of the ship eases punching.
- 4 stem design**
Demonstrates needle retention and high speed with a water line length equivalent to 40ft.
- 3 flare**
Expands deck space and suppresses spraying
- 6 transom shape**
Suppresses hump during acceleration and ensures good visibility.

- 2 Large-sized fin keel**
Big Opening on fin keel to counteract the forces of wind and waves.

- 5 Double Chain**
Reduced Chine Overhang and wave resistance
