**YANMAR**

Diesel Inboard Fishing Boat

# VX28C

Centerline length: 8.95m Width: 2.74m Depth: 1.63m

**THE OCEAN  
AWAITS**

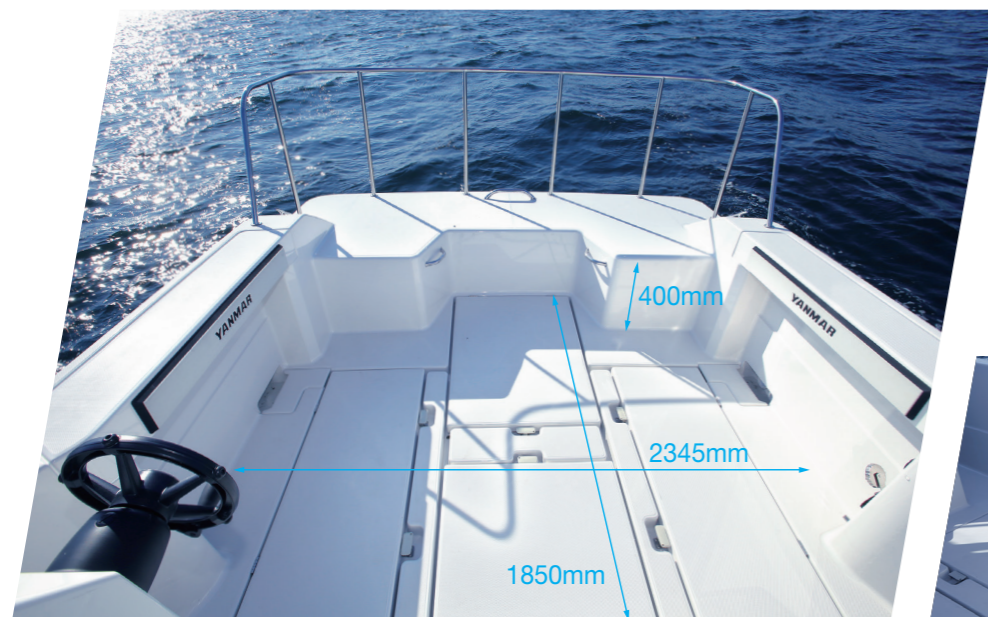

**SUPERIOR FISHING**

# Each space is optimized for fishing

## Bow deck

The square-shaped bow enables a flat and spacious fishing space, that allows for two people to cast simultaneously. The large bow rail and step height improve safety and make it easier to fish. A bowsprit can be installed for additional convenience.

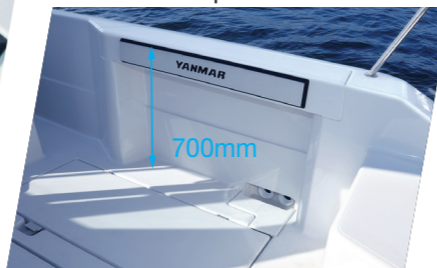

## Aft deck

A wide fishing space with a flat deck and transom steps that are easy to move. The open bulwark accommodates a wide range of outfits and is designed with the optimum height for fishing. In addition, the side decks' depth and handrails, make it safer and easier to walk from aft to bow while carrying fishing rods.

Side Deck: 290mm

Open Bulwark: 700mm

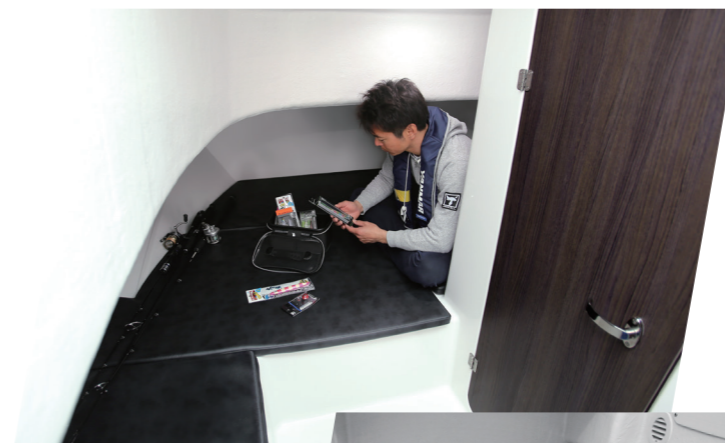

## Sit back with friends and enjoy the view

### CABIN

A relaxing living space where four adults can sit comfortably with a ceiling height of 1840 mm. The cabin is designed to maximize visibility for all passengers. Installing a factory-option marine air conditioner will make your ocean adventures even more comfortable.

### BERTH

### HELM STATION

Three nautical instruments\* can be installed in the easy-to-operate front counter space. The driver's seat is equipped with a damper for improved comfort and the seat can be adjusted to the optimum position.

\*2 10-inch class + 1 8-inch class instruments

Electric marine toilet

The bow berth is spacious enough for peaceful afternoon naps or can be used for storage space, in addition to the storage under the floor board.

An optional cushion can be installed for additional comfort. Additionally, a spacious toilet is standard, making long fishing trips more comfortable.
